

Eight Key Principles for a Comprehensive & Effective Sound Management System™

Overall Philosophy and Approach

1. Amplified sound is an integral part of nightlife and entertainment and includes sound to be managed, not noise to be eliminated

Sound Ordinance

2. Proactive approach and system that is tailored for entertainment-related amplified sound
3. Customized sound level allowances for specific locations and contexts
4. Long-term predictability for all stakeholders

Beyond Sound Ordinances

5. Resources are invested and solutions are made available to nightlife and entertainment establishments to support vibrancy while minimizing sound impact to surrounding area
6. The quality of life for nearby residents is anticipated and addressed
7. Ongoing stakeholder education that fosters relationships, dialogue, and problem solving is facilitated
8. Dedicated and responsive compliance and enforcement with an emphasis on building relationships and trust, solving problems, and seeking compliance
